PROFESSIONAL

MACHINE START-UP PROCESS AFTER A LONG STANDSTILL

GEMINI

with & without dwc
(Direct Water Connection)

- 1 - Ensure machine is off
- 2 - Remove and empty water tank(s)
- 3 - Wash water tank(s) with mild soap
- 4 - Return the water tank(s) to the machine
(and fill with fresh water if you don't have a direct water connection)
- 5 - Turn the machine on; the machine will do an automatic rinsing
- 6 - If you have a direct water connection, repeat step 1 to 5 again
- 7 - Run a few drinks without coffee capsules (on each head, if applicable)
- 8 - Repeat step 7, if needed
