

NESPRESSO
PROFESSIONAL

MACHINE START-UP PROCESS AFTER A LONG STANDSTILL

AGUILA 220

AGUILA 420 & 440

- 1 - Turn the machine / fridge on
- 2 - Run a cold start rinse as prompted on the display
*Watch video “start/restart ”: [nespresso.com](https://www.nespresso.com)
- 3 - Run an automated full cleaning cycle after machine has heated up
*Watch video “ how to manage end of day cleaning ”: [nespresso.com](https://www.nespresso.com)
- 4 - Run a few drinks on each head, without coffee capsules
- 5 - Repeat step 4, if needed

Note: refer to the machine user manual for complete cleaning guidelines or call the Club if you need any assistance.
