

RECYCLE YOUR USED NESPRESSO CAPSULES

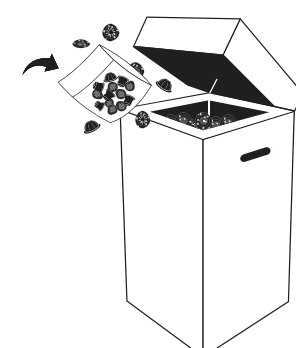

We've partnered with **Nespresso** to provide a convenient drop-off point for our used aluminum capsules to be recycled through the **Nespresso** recycling program.

HOW IT WORKS

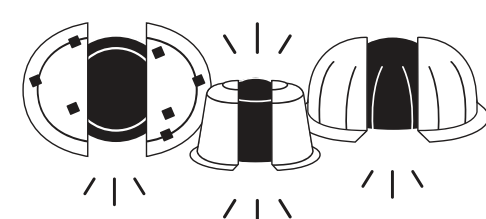

STEP 1

Bring in your used **Nespresso** capsules from home and empty the capsules from the office coffee machines into the Bulk Recycling Box provided.

STEP 2

A complimentary collection is booked by us and the Bulk Recycling Box is collected and sent to **Nespresso's** partner facility. Here, specialised equipment is used to separate the aluminium and coffee grounds.

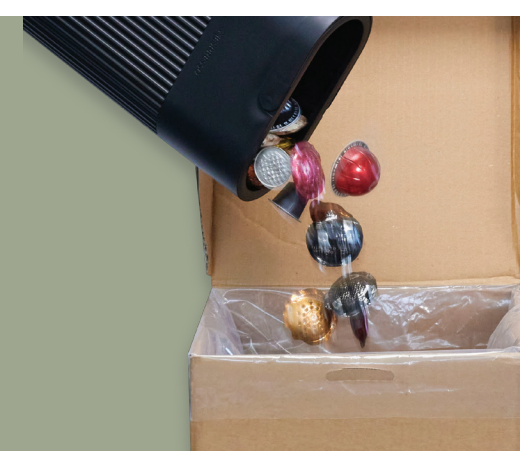

STEP 3

The recovered coffee grounds are processed for use as compost and soil mix for landscaping. The aluminium is compressed and sent to the aluminium industry.

BY RECYCLING TODAY, THE CAPSULES WE
USE CAN GO ON TO HAVE A SECOND LIFE.
